

Dear Team

This is for your information that Amar Ujala has adopted the Newspro Gateway system for all bureau offices editorial team. This is already hosted in Noida data center with following configuration:-

CPU - 14 Core

RAM - 16 GB

HDD – 500 GB

OS – Windows 2012 and SQL 2008 R2 express

Bandwidth – 10Mbps

Few bureau centers of Meerut unit are already working on Gateway on live production and now we want to training to all editorial persons of all bureau centers about the Newpro Gateway systems.

Hence I have uploaded the Gateway training video and ppt on FTP test server as “**gateway training video and PPT.zip**”. Kindly download the same and circulate to all bureau centers of your respective centers to familiar with Newspro gateway.

You can access gateway through internet with URL - <http://newsgw.amarujala.com>

You can also access through our MPLS with URL – <http://10.59.51.73/Gateway/Login.aspx>

**Once you have understood the training and done some dummy entries in the gateway, share the same video with your RE.**

Once he gives his approval, please push to all bureau centers person to practice on Gateway so that they can familiar with gateway and can do well at the time of actual gateway live.

You can contact to Mr. Ajay Tirvedi at Haldwani about the user name and password.
